Welcome to
ADP TotalSource®

Always Designing
for People™

Hello, and welcome to ADP TotalSource®

We're thrilled to start this journey with you! Your employer partnered with us to offer you the most competitive selection of benefits options. Together, we're able to provide the kind of coverage typically found only at larger corporations — without losing the advantages of working at a smaller company. We've also made it easier for you to understand your options, so you can make confident enrollment decisions, and take advantage of the benefits your employer has made available to you.

While benefits are great, there's actually more to us than that

We're here to help you feel more productive and inspired at work and at home, and always feel valued for all that you do. How? By providing you access to a range of resources, tools, and more.

This directory introduces you to these offerings. There's quite a bit of helpful information in here, but if you have any questions, or you just want to speak with someone who can give you the answers, call a MyLife Advisor at 844-448-0325. The MyLife Advisor will let you know the ways in which ADP TotalSource can work its hardest for you, and leave you feeling confident in your next steps.

Enrolling in your benefits for the first time

Once you are registered, you'll start the journey of reviewing and enrolling in the benefits package offered by your employer. The first enrollment period is typically referred to as the "New Hire Enrollment Period," since you are new to ADP TotalSource. And because life changes, and so do benefits options, every year you're able to review your benefits again and update them as needed. This is called the "Open Enrollment" period, which takes place every spring. We'll be in touch during this time.

But don't worry about figuring this out on your own. You'll receive emails, videos, and access to online resources throughout the enrollment period. We'll help you understand your options and tell you what you need to do and by when.

Registration is quick and easy
